PROFILE SUMMARY

A motivated and high-achieving 4th-year Biomedical Engineering and Computing student with hands-on technical experience and a proven track record of independent and team projects, seeking work in research and development. Eager to gain a foothold within the Biomedical Engineering industry by working on new projects and collaborating with others.

EDUCATION

2023-2026
UNIVERSITY OF WOLLONGONG

- Bachelor of Biomedical Engineering
- Computing Minor
- Top Biomedical Engineering 1st + 2nd + 3rd Year Student
- 80+ WAM

SKILLS

- Biomedical Engineering and AI Fundamentals
- Electronics Repair & Maintenance
- Self-Motivation & Initiative
- Team Collaboration
  - Oztag, Cricket, Netball
  - University Projects
- Python, C++ and MATLAB Coding

PROJECTS

- CICO Practice Dummy
  - Designed and created a tool for the practice of the CICO procedure
- Hand Gesture Recognition Thesis
  - Using infrared sensors and AI models to track hand gestures and finger movement in real time

WORK EXPERIENCE

UOW MedSim Supervisor MAR 2026 - OCT 2026
Worked on projects and helped new students

- Worked independently and in teams to complete projects
- Worked in short time frames to complete a product to others specifications
- Took on and improved new skills to meet the required criteria.

Data Annotation NOV 2024 - DEC 2025
Remote AI Training Data Validator

- Independently reviewed and evaluated AI training data against unique criteria
- Consistently produced high-quality work without supervision
- Strengthened attention to detail and data validation skills in a remote work environment

Brullen Apr 2023 - Nov 2024
Maintenance Technician (Ice Cream Machines)

- Performed regular on-site maintenance and repairs of commercial ice cream machines across the Illawarra
- Diagnosed technical and mechanical issues on site, independently
- Developed customer communication skills through direct interaction with store managers
